DRUISER MONTGOMERY'S MISSION

Probably Sent to Liberta to Ascertuin the Extent of French Activity. It Being Charged That France Is

Encroaching on Black Republic. London, Dec. 30.-It has been learned by a press representative that the Uni-ted States cruise. Montgomery's visit to Liberia is apparently the result of avertures made to Washington by that republic. Though the British governent is in complete ignorance of the purpose of the Montgomery's mission, the establishment of a coaling station in Liberia by the United States is regarded as scarcely possible, as, it is asserted, no Liberian port has any fa-cilities for coaling, all of them being

open and surfbound. The press representative learns, how ever, that a far more important step is under consideration. It consists in a joint request of the United States and Great Britain upon France to define the boundary between the territory she claims and that claimed by Liberia. This step is not yet decided upon. but "Front Britain only awaits the Uni-

ted States' assent to become a party to such a request. It is alleged that France for many years has been encroaching on Liberia, and if was only by the strenu-ous protest of the United States that

she was prevented from appropriating a large slice of Liberia in 1892. According to the Hon. Arthur Pon-senby, mana ing director of the Liberian rubber sydicate, which recently guaranteed the interest of Liberia's public debt, the Montgomery's visit is probably prompted by a desire to ascer-

tain the extent of French activity, Mr. Ponsonby said to a press representative: Bishop Hartzell, while in Mourovia this year, strongly urged the governent to liferest the United States in preserving the boundaries, with the result the biberia appointed a mission to Washincton, I believe it has al-ready made representations, and pre-sume the commander of the Montgomry investigated both this and the pos sibility of a coaling station. The latter Liberia would gladly lease to the United States, but beyond hoisting her

ing upon it it would be of little ser-The feeling among British subjects commercially interested in Liberia is that the repullic's progress had bet-ter be under the protection of either Great Britain or the United States. But both the British government and those having interests there believe that so long as Liberia can continue to struggle on in her present condition everything possible should be done to

BRITISH INCONSISTENCY. French Official Discusses the Seis ure of American Flour. Paris, Dec. 30.—The virtual seizure by British officials of vessels laden with American flour consigned to the Boers has aroused renewed interest in Paris. An official of the French

foreign office said to a press correspondent with respect to the seizure of breadstuffs: "Such a seizure is absolutely outside of international rights and as foolish as though Great Britain, supposing her to be at war with Switzerland, should declare a blockade of Hamburg for fear certain goods should reach the Swiss

from that source. "A decision to consider breadstuffs contraband gould be regarded in dip-lomatic circles as a suicidal policy for Great Britain, as she would be most dependent for food supplies upon other nations in case a war arose involving

The official then proceeded to point out a number of precedents against the action of Great Britain in this matter. He cited her own refusal, during the Franco-Prussian war, to recognize as contraband coal consigned to France although it was known to be intended for warships. A still more pertinent instance arose during the Franco-Chinese war, when Great Britain declined to accept a declaration of France making rice contraband.

Obviously, however, the chief ground for apprehension is the belief that, if Great Britain should establish a cordon of vessels across Delagos bay, it would be necessary for all nations to send naval vessels there to protect individual rights.

Finding that her presence at Setta-goll exposed her to insults, the Hoers moved her to Mosuit, where she enjoy-ed the hospitality of a colonial farmer. By means of heavy bribes she persuad-ed natives to carry information to and

fro. Extraordinary stories regarding her were circulated among the Boers. One was that she was the wife of an English general, another that she was a granddaughter of the queen and had come to spy upon the doings of the Boers, and a third that she was the only female survivor of Mafeking, hav-

ing escaped in the guise of a woman, Lady Sarah visited Vryburg. S was driven there by a young Boer, who passed her off as his sister. She found loyalists, who gave her official dis-patches and news. She stayed in the hotel all day and stole out at night to do shopping. On visiting the hospital she found that orders had been issued that no one should leave the town.
